

# LAPAROSCOPIC SACROCOLPOPEXY

## A PRACTICAL COURSE

29 April 2016 | 8<sup>30</sup>–13<sup>00</sup>

for 24 delegates

**Location:** Biomedical Center, alej Svobody 1655/76, 323 00 Plzeň

**Proposed learning objective:** To provide course attendants with a practical guidance into the anatomy, surgical technique and perioperative complications recognition and management during laparoscopic sacrocolpopexy. To provide a hands on training on laparoscopic suturing and mesh fixation in models.

**Faculty:** Jan Deprest (BE), Bruno Deval (FR), Mija Blaganje (SI), Jaromir Masata (CZ), Vladimir Kalis (CZ)

### Program:

- Anatomy of the presacral area and gutter (B. Deval, 20 min)
- A stepwise approach to efficient LSCP with video (J. Deprest, 20 min)
- Uterine/cervical conservation (V. Kalis, 15 min)
- Intra- and post-operative complications of sacrocolpopexy: management and prevention (M. Blaganje, 20 min)
- Tips & tricks in sacrocolpopexy (J. Masata, 20 min)
- Hands on training
- Laparoscopic suturing on a pad (30 min)
- Laparoscopic suturing on a purpose designed endotrainer using mesh (80 min)

**Registration:** <http://www.biomedic-plzen.cz/en/389-laparoscopic-sacrocolpopexy-29-april-2016>

This workshop is accredited within the Czech Medical Chamber with 5 credits.
